

Oleksii Savchenko

Full Stack Developer

Currently I am looking for an opportunity to realize myself as a web developer. For this purpose, I am learning the appropriate technologies. Previously, I worked as a system administrator, which gave me an insight into IT infrastructure. I also have experience in analytics and understanding of customer needs. Participated in the design and implementation of web applications.

Project Experience

[Your Pets](#), Link to git: [frontend](#), [backend](#) [Git, Node.js, REST API, React, Redux, MongoDB]

Team project of the course for Full Stack developers. **Role:** Scrum Master/Developer

My contribution on the backend - creation of the API for the news, plus CI/CD. On the frontend - news page, search by headings, pagination component, user profile component, universal modal.

[Uapowerkit.com](#), [Link to git](#) [Git, Nginx, PHP, HTML, CSS, JavaScript]

Create website for NGO "POWERKIT VOLUNTEER" . **Role:** Team lead/Developer

Simple landing written on HTML, CSS, JS. Switching content language using JS. The gallery uses the Swiper library.

[Bookshelf](#), [Link to git](#) [GitHub, Parcel, HTML, CSS, JavaScript]

Team project of the course for Full Stack developers. **Role:** Developer

Create universal class for work with API, that return markup with data. Helped teammates resolving merge-conflicts and adjusting code with my universal class.
